

XPLORATION

Xploration Camp Inspiring Tomorrow's Engineers

LSU | College of Engineering

The LSU College of Engineering is proud to offer a residential engineering summer camp to qualified female high school students. Halliburton XCITE gives high school girls the chance to explore, create, experiment, build, code, design, and compete in a variety of engineering and college prep activities. The camp is held every summer on LSU's Baton Rouge campus, where college faculty and students interact with attendees through workshops and activities. The signature event is a week-long "Design Project Competition" in which students compete on teams to design, build, and present a project. Visit <https://www.lsu.edu/eng/future/summer-camps/index.php> for eligibility, application link and more information. **Questions?** Contact: xcite@eng.lsu.edu or call 225-578-5731.

Scholarships are available for students with documented financial need.

WHO

Rising 9th, 10th, and 11th grade female students
(Current 8th, 9th, and 10th grade students)

WHEN

July 7 – July 13, 2019

WHERE

LSU Campus

COST

Early Bird Price - \$400
(includes room & board)
After April 8, 2019, 11:59PM - \$450

Application Deadline
April 29, 2019, 11:59PM
